Father and Five Children Suffered for Two Years With Terrible Eczema - Home Remedies and Medicines Gave No Relief-Mother Expresses Joy at

WONDERFUL CURE BY CUTICURA REMEDIES

"My husband and five children were all afflicted with ecrema. They had it two years. We used all the home remedies we could hear of, without any relief, and then went to a physician and got medicine two different times, and it got worse. It affected us all over except head and hands. We saw Cuticura Remedies advertised and concluded to try them. So I sent for \$1.00 worth, consisting of one cake of Cuticura Scap, one box of Ointment, and one vial of Fills, and we commenced to use them. I do not know how to express my joy in finding a cure, for two of my children were so bad that they have the brown scars on their bodies where they were sore. If it will be of any benefit to you, you can publish my letter with pleasure. Yours truly, Mrs. Maggie B. Hill, Stevens, Mason Co., W. Va., June 12, 1905."

The task of wiping out the saloon is in the hands of the ministry. The clergy lave not yet been aroused to a full sense of their responsibility, and not until they are will the work be done.

An encouraging sign is the healthy sentiment that has been created. The pessimistic view of the liquor men with reference to their own business is also significant, for they realize that the days of their business are already numbered.

RAILRIAD ASKS TO BE ALLOWED TO RAISE RATES

[Special to The Times-Dispatch] FREDERICKSBURG, VA., December 4

The Corporation Commission, which was session here yesterday, adjourned last evening in time to return to Richmone at hight, having completed the hearing of witnesses in the case of the Potomac, Fredericksburg and Fledmont Railroad, which runs from this city to Orange Courthouse, which asked for the permission to increase its freight rates on certain classes of freight. The arguments of the attorney for the shippers who oppose this increase, and of the counsel of the railroad, will be submitted in writing and a decision rendered later. The general belief is that a slight increase on certain products will be granted, and that the road will be required to improve its facilities in furnishing more cars.
